Formulas with computed variables -- more simple ones

Let's add always visible result (by always true formula)

WordPress 4.8 is available! [Please update now.](#)

Edit Result

Name

The name is how it appears on your site.

Slug

The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.

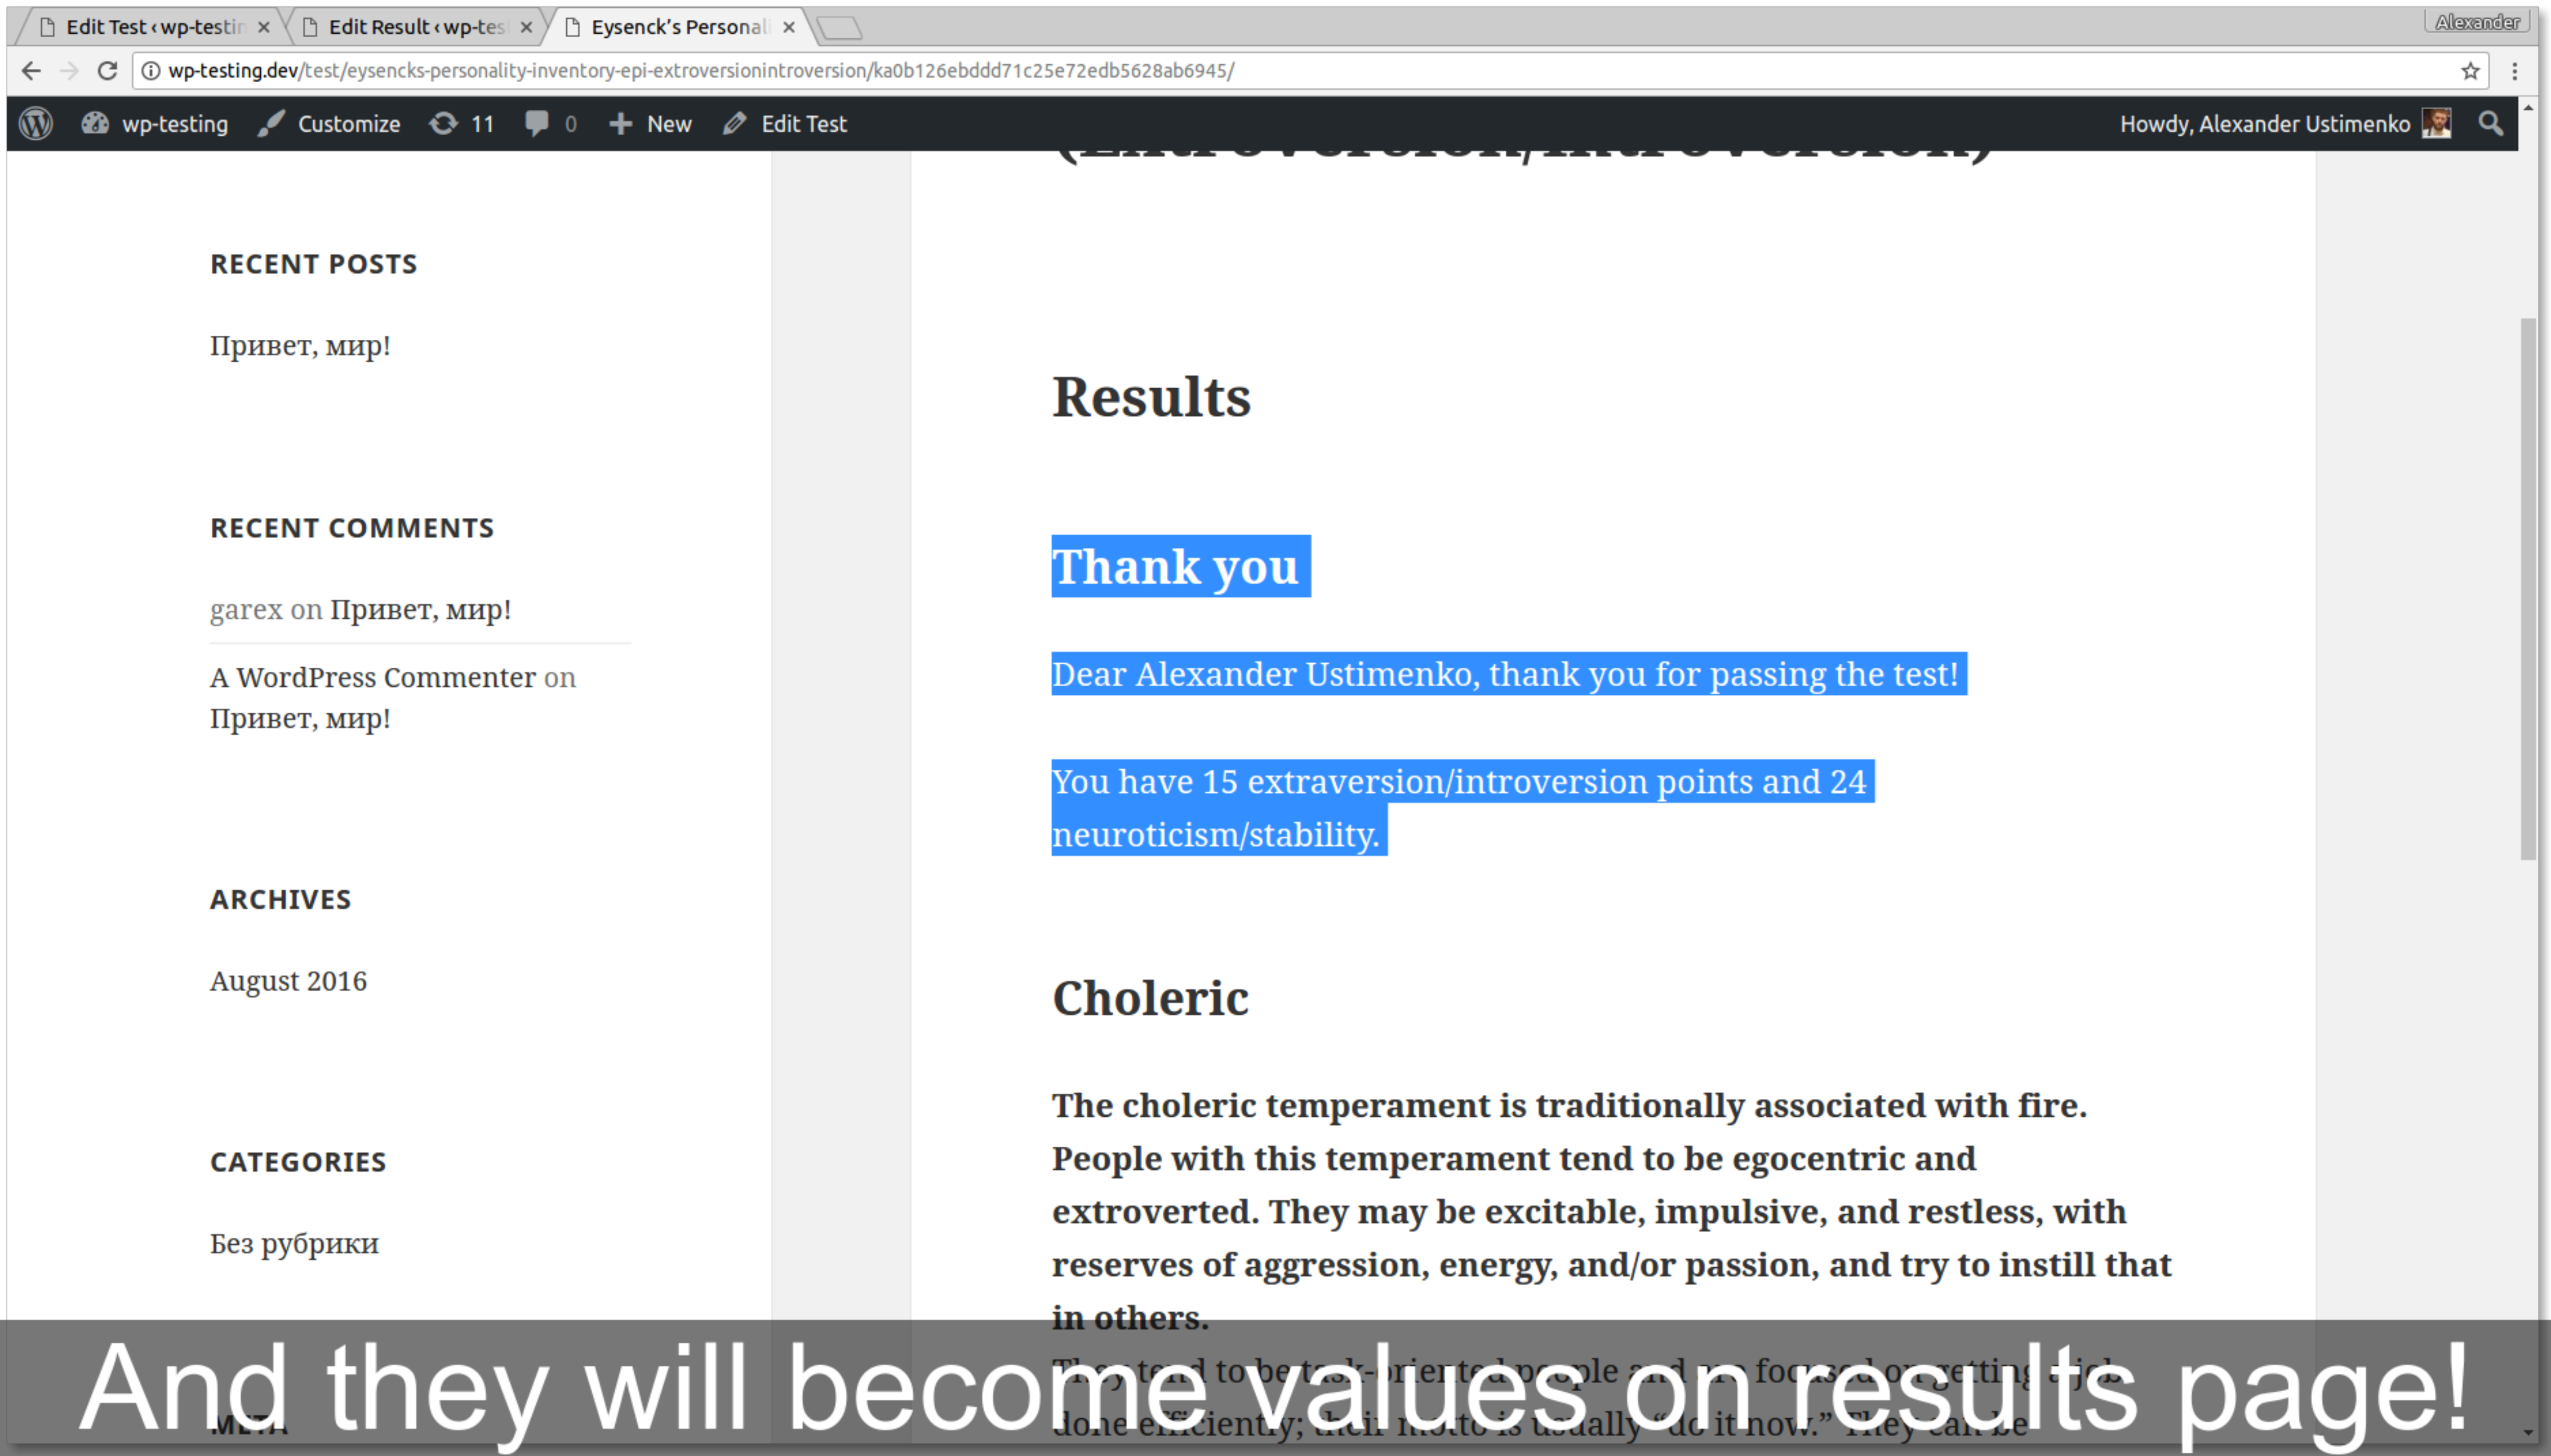

Parent

Description

The description is not prominent by default; however, some themes may show it.

Update

Use variables values in result description through shortcodes

Thank you

Dear Alexander Ustimenko, thank you for passing the test!

You have 15 extraversion/introversion points and 24 neuroticism/stability.

Choleric

The choleric temperament is traditionally associated with fire. People with this temperament tend to be egocentric and extroverted. They may be excitable, impulsive, and restless, with reserves of aggression, energy, and/or passion, and try to instill that in others.

And they will become values on results page!
